The aim of this course is to acquaint you with the basics of mathematical statistics: the ideas of estimation, hypothesis testing and statistical modelling J A Rice, Mathematical Statistics and Data Analysis, 2nd edition, Duxbury Press, 1994, ISBN 0-534-20934-3

Mathematical Statistics

Statistics is about the mathematical modeling of observable phenomena, using stochastic models, and about analyzing data: estimating parameters of the model and testing hypotheses In these notes, we study various estimation and testing procedures We consider their theoretical properties and we investigate various notions of optimality
